Do yourself a favor and become knowledgeable about the materials that are stored under my domain set.

Remember the KEY MINDWAY STANDARD HERE: On the largest most popular and recognized professional's level social media networking platform of:

W W W . L I N K E D I N . C O M

actual "in operation" company name profiles are available, valid, and in use, that contain the word "Fuck" in them.

Examples include [but not limited to]:

Fuck Cancer",

"Fuck Yeah Astrophysics",

"Fuck Rasism", and

"Fucked Up Design"

Each of these cited examples has the following VALID COMPANY NAME PROFILES accessible on that site:

<https://www.linkedin.com/company/fuck-cancer/about/>

<https://www.linkedin.com/company/fuck-yeah-astrophysics-/about/>

<https://www.linkedin.com/company/fuck-rasism/about/>

<https://www.linkedin.com/company/fucked-up-design/about/>

furthermore, as this list applies to this word, these examples each have their own web named presence using this same set professional's level standard allowing the use of the word "fuck" in internet domains.

<http://fuckcancer.org>

<http://fuckyeahastrophysics.com>

<https://fuckrasism.se>

[Not An English Site, Affirms the presentation truth that word usage crosses over English exclusion and is actually more universally understood to the meaning of this word across multiple languages than most all other words especially any word for "peace". More to that fact, there are only a few more citation example that has a higher frequency use across multiple languages that you could count on one hand. Such examples of these more universally common words would be, verbatim "Hello", "no", and perhaps "help" which has it's even more focused universal usage sign of "SOS" spelled the same front and back in morse code . . . - - - . . . [dot dot dot dash dash dash dot dot dot].

That is the kind of applied meaning use of the word "fuck" as it applies to this fax message.

You can find these LinkedIn companies and others similarly named by using the search by company name option with the word of "fuck" as the keyword search.

Although this discussion here would be kind of childish by this point to have to provide such a lesson to an adult point of need. It is obvious that the word itself has a higher significance meaning that can not be replaced by any other word, phrase, gesture, or symbol.

Do I actually need to treat you like a child to get a response and an action to a condition of great concern that is affecting the health and wellness of the field industry that you are employed into a matter that has "life and death" relevance? Well, do I? Seems that someone like your mother should slap you upside your fucking head for remaining silent when the community deserves to unify and make a corrective course direction new path of change.

My internet domain web presence is valid on our information society and most all of the content that is stored there is open access public [all surface web, no dark web, no deep web]. That domain of course, if you can't remember it by now, is the shocking knot binding presence of #Mptatapo under an internet domain naming space:

F U C K E D H U M A N . N E T

This is just an extension of the standard that is established on LinkedIn, the largest, most popular and recognized professional level social media networking site in our world globally.

Do you stand for unity or divisions among our communities and society? So far all I see is that you stand for, defend, and hold beliefs that divide our cultures to a state of chaos that is driving us to self implode into a full and complete collapse of our country commons.

if you don't get it yet --- my correspondences deserve and demand to be read complete, responded onto, discussed, and remedies move into motion and action thus bring a new intention to the universe of the Ryan White Care Act funded social services agencies that have the the provable source directives of hate, harassment, and retaliation against me individually and other clients. This has happened to me in different regional areas and what is reported on a national basis research findings that similar reports fall into a memplex mechanics that if agencies actually were fully independently operating, they would not fall into a category of the same categories of reporting problems. if they had reported at all for mismanagement. But they do. That means there is a hell of a lot of room here for the improvement of your holding structure of business operations.

Where are those improvements? We deserve a system closer to excellence than a system of a #HugeFail that has occurred.

Organizing for Action

James --

Next Tuesday's elections are more important than any I can remember in my lifetime -- and that includes when I was on the ballot. That's saying something.

Now I know politicians say all the time, "This is the most important election." But this one *really is* that important. The stakes *really are* that high.

The consequences of you not voting -- or not doing everything in your power to ensure your friends, family, and neighbors vote -- could be monumental.

America is at a crossroads, and control of Congress may be decided by a handful of razor-thin House and Senate races. Dozens of governorships and thousands of state legislative seats are up for grabs, with major implications on whether we can draw fairer maps for the next decade.

Make no mistake: The direction of the country will come down to who turns out and who stays home. And the greatest threat to our democracy is indifference.

Indifference is exactly what cynical politicians want from you. They're counting on it. Their success depends on convincing you that your vote doesn't matter. They know their agenda is unpopular, so the only way to keep power is by shrinking the electorate.

Don't let them.

If you're mad at politicians trying to take us back to the days of health insurers denying people with pre-existing conditions of care ... **Vote.**

If you're sick of politicians giving huge tax cuts to billionaires, only to tell you we have no choice but to slash Medicare and Social Security ... **Vote.**

If you're upset with politicians denying basic climate science as our communities continue to pay a steeper and steeper price ... **Vote.**

If you're outraged by politicians refusing to pass common-sense gun laws in the face of a tragic epidemic ... **Vote.**

If you're frustrated with politicians failing to adequately stand up for the rights of immigrants, or women, or LGBTQ Americans ... **Vote. Vote. Vote.**

Vote like our democracy depends on it, James. Make a commitment right now to get to the polls -- and get involved in these final 8 days.

I'm in

Thank you,

Barack Obama

Dear Jennifer_Anne_Brehme/ Mental Health Director, Foothill Aids Project

CC: Barack Obama, Response to email addressed to:

James Driskill <HUDPublicHousing-Corruption-DroveMeToSuicide@fuckeduphuman.net>

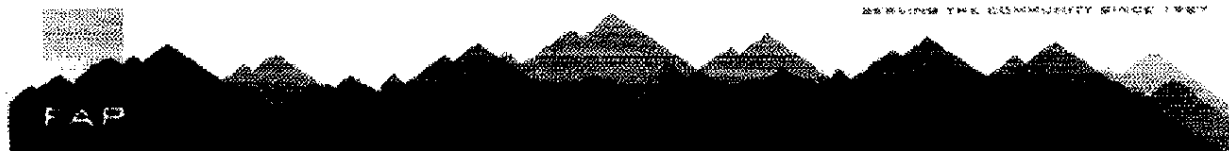

If you look very closely at the email address that our former US President actually sends me communications [see below], I have this addressed assigned for many years. What is amazing is that you at Foothill Aids Project won't follow through with the letter addressed To Whom it May Concern from Doctor Howard Newsom. That is because if you would actually follow the letter's advise, it would have to incorporate the resolution of the Ryan White Care Act conspiracy exposed and #ConspiracyExposedTerminatesASAP.

You see, that the only solution that should be addressed. Not a passing to the next person down a chain of failure. I don't trust that kind of interface for this resolution.

But --- you won't comply to reason. You want to remain in secret. That means that you are following a course of structure that is contrary to the Ryan White Care Act foundation of supportive interface for clients. Because your own Mental Health Director in 2007 actually did the right thing and listened to the story of hate that I received. This situation is unmanageable the way it is currently in 2018. There must be some application of rational thinking and some correction at the cause of this situation that allows the haters to win when they are acting bad and I have not done anything but to the empowerment of attempting to be myself, free of hate, and build a community resource that I attempted that was against the agenda of those who are in the leadership of this hate paradigm. Don't insult my intelligence by remaining there silent to this cause. I happen to be the exception to the rule of client needs that must be addressed. I will pursue this in the legal sense if I have to. Because there is no escaping you all haters that are in the grip of this dysfunctional client interface.

The screenshot shows a web browser window with a Google search result for 'Foothill Aids Project'. The browser's address bar shows the URL: https://www.google.com/search?num=100&newwinc. The search results display the business name 'Foothill Aids Project' with a 3.0 star rating based on 2 reviews. The address is listed as 570 N. Arrowhead Avenue, Suite 4-5, San Bernardino, CA. A review by Aaron Jacobson, a Local Guide, is visible, dated 'a year ago'. The review text reads: 'This agency is FRAUDULANT in its services and practices when it comes to serving the HIV population and utilizing Ryan White Funding. My recommendation for any HIV client interested in signing with them is to run as far and as fast as you can.. they treat HIV consumers with contempt and unprofessionalism.' Below the review, there is a thumbs-up icon and the number '4'. Another review by Gabriel Andrew Chavez, dated '8 months ago', shows a 5-star rating. On the right side of the search results, there is a 'Save' button and a 'Google review' button. At the bottom of the browser window, a Facebook link for 'Foothill AIDS Project - Home | Facebook' is visible, along with an 'Add missing information' button.

You know I am right. You have to hide in a dark shadow of the internet and not respond common decency.

TO WHOM IT MAY CONCERN:

Mr. James Driskill has been a client of mine for Individual Psychotherapy since October 30, 2006. He has been attending Foothill AIDS Project's (FAP) "Living Well With HIV/AIDS" men's Support Group on a weekly basis since September 2006. He was self-referred for Individual Psychotherapy.

Mr. Driskill sought treatment for a high level of stress and anxiety primarily regarding his housing situation. He became homeless in Oakland earlier in 2006 and is currently residing with his family and extended Family in San Bernardino. In addition to his unresolved eviction in Oakland he was not able to secure immediate housing through the AIDS Housing Program in San Bernardino County due to a waiting period for each new applicant. These events resulted in Mr. Driskill experiencing a high level of anger and frustration.

While in both settings of therapy, Men's Support Group or Individual Psychotherapy, Mr. Driskill accepts the fact that he has an upfront, in your face style of confrontation. The men and I have come to realize that his style is primarily a reaction to his extreme level of frustration and we have learned not to be put off by his style. In these affirming settings he has learned to modify his style of confrontation which should continue to improve. I have also been impressed with how Mr. Driskill has sought out resources on how to understand and to cope more effectively while experiencing an almost complete lack of support from agencies and individuals. One such resource was the book "Please Understand Me: Character & Temperament Types", Kiersey, Davis and Bates, Marilyn.

His Mental Health and HIV Health status were both clinically affected by his housing crisis in Oakland and here in San Bernardino. He is currently responding well to the treatments and his prognosis is good. However, I believe that until there is an appropriate resolution (he wants an absolution) of his housing conflicts, he will remain in a vulnerable state regarding his overall HIV and Mental Health status.

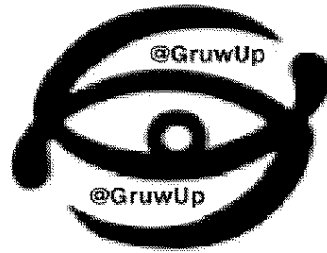

Sincerely,

Howard W. Newsom PhD.
