Please Open This Spoken Voice Text Narrative / Written Copy Interface To An Email Directed To Be Addressed To Darrell Johnson, The Building Manager Of Chesney Kleinjohn Apartments In Denver Colorado --- Where once again I am detached and forbidden to hold empowerment models of any kind of project model of community-based levels of excellence in the HIV Community. The leaders and directors are involved in a hate agency to client interface of social services. Your actions in March goes to show that this hate paradigm also exists between doctor and patient in HIV Healthcare provider treatments. This secret agenda you all have been following is disturbing, to say the least. Don't insult my intelligence and tell me that there is no conspiracy here and that I am off my rocker. Don't insult your own intelligence and tell me that I have not documented enough "live life journal" experiences day to day for the past 10 years that does not meet the standards of the preponderance of the evidence level for a jury to decide on these matters. \$50,000 Law suit pending against the actors of this conspiracy.

DOCTOR SHIGENO, you will be named as a defendant in such a filing case.

In order for you to link to this web presence presentation page, you will have to use the exact case. Why don't you go to the root directory folder of this naming web presence and begin to explore what is documented there?

Also, check these out, all related to documenting this conspiracy affects my life -- my life path has been seriously altered and dismounted from any national progressions of empowerment thriving life successful outcomes. **SOMEONE [This Conspiracy] IS RESPONSIBLE FOR THE INJURY AND HARM THAT THIS MATTER HAS CAUSED INTO MY LIFE - By you defending Foothill Aids Project in the manner in which we could not begin a discussion point, YOU TOO HAVE ALLOWED HATE TO WIN!**

JUST HOW WILL THE JURY INCORPORATE THE ENTIRE RECORD I HOLD --- HOW WILL THEY VIEW IT --- WHAT WILL THEY DECIDE? ---

You decide if you want to take that defense into your actions or decide to pull together and find a time to repair this doctor/patient relationship per the AMA Journal of Ethics article on your fiduciary responsibility --- and to include Foothill Aids Project into that discussion and break this conspiracy affect that is injuring the community to an extreme.

How do you respond an Answer

Repairing "Difficult" Patient-Clinician Relationships

Denise M. Dudzinski, PhD, MTS and Carrol Alvarez, MS, RN

Conclusion

Clinicians readily accommodate patients' physical disabilities, but they might neglect to take into account patients' deficits in social and life skills or thorny personal styles. The latter signal the need for different kinds of accommodations. Patients' personal histories may influence their expression of distress, communicated in ways that complicate their ability to receive necessary care. When a clinician encounters a patient whose behaviors are disruptive and distressing, a step back for reflection can provide a shift in perspective.

The basis of trust in the patient-clinician relationship is a fiduciary obligation to protect, respect, and heal vulnerable patients. The patient-clinician relationship is inherently unequal, and the physician marshals her knowledge and power solely to aid the patient. Consequently, clinicians always have more responsibility to repair and rebuild the relationship than patients. The strategies discussed here can help clinicians do just that.

This matter is expanded more than just a single interfaced patient to provider. THIS MATTER IS ABOUT THE COLLECTIVE EROSION OF TRUST OCCURING IN THE HIV/AIDS FIELD INDUSTRY OF TREATMENT AND SOCIAL SERVICES. WHAT IS HAPPENING ON THE FLIP END SIDE OF THIS SETUP STRUCTURE IS:
